

Awesome Art Classes!

These art classes are not only a blast, but allow children to express themselves creatively and learn about different forms of art. Join us to bring out the artist in your child and let's have some creative fun! The Department is excited to have Queensbury Elementary School Art Teacher, Jennifer Spath, joining us this summer to lead these great programs!

NOTE: Please use the QES back parking lot entrance — 2nd Grade Wing.

Please have your child wear old clothes or bring a smock.

Please send your child with a nut-free snack and drink each day.

Note to parents: For your child's safety, please inform the Department Staff, at the time of registration, and the instructor of any known allergies that exist for your child!

THE FRANCES YOUNG TANG TEACHING MUSEUM AND ART GALLERY AT SKIDMORE COLLEGE PRESENTS ...

LET'S ROCK!

The talented and delightful TANG educators will inspire and help us to create amazing art projects! They will present incredible images to motivate the creative process. Each participant will create a 3-D sculpture/musical instrument using bowls and cups as building materials. The Tang educators will also provide colorful tissue paper, beads, tape, and glue. For inspiration, we will look at images of artwork by Dona Nelson and pictures of musical instruments created by Guillermo Galindo.

This hands-on art project will provide an opportunity for teaching, learning, and understanding issues raised by current exhibitions at the Tang, while offering children the chance to express themselves. We invite your child to join us to unleash the POWER of his or her CREATIVITY!

The Parks and Recreation Department is thrilled to partner with and welcome back the Tang Teaching Museum to offer this superb program! For more information about the Tang's exhibitions and programs, please see www.skidmore.edu/tang.
