YOUNG HACKS ACADEMY

Learn to code. Build confidence. Make new friends.

Young Hacks Academy is a summer camp that uses technology to develop real-world leadership skills. Blending computer programming, problem-solving, and teamwork, YHA teaches kids to build cool video games and interactive projects about big challenges facing the world today. As serious as we are about exploring tech, YHA is also committed to having fun away from the screen, moving campers outside each day for unplugged games. No programming experience is required.

AT

AGENT TRAINING
for Ages 9-12
(Beginner)
$285-$295

Whether it's public speaking or collaborating with peers, YHA Agent Training models essential leadership techniques that will immediately help students in and out of the classroom. Agents tackle daily missions using Scratch, a user-friendly, visual programming tool that empowers students to quickly start developing their own games and stories.

PRAISE FOR YOUNG HACKS ACADEMY

"I've never seen my child this engaged in a summer camp before."

"My daughter had so much fun that she didn't even realize how much she was learning."

"Such a great experience for the whole family."

"It couldn't have been better. Thanks Young Hacks!"
